INFORMATION
BULLETIN
501
November 2002

This Information Bulletin lists the fees collected by the City of San Diego for construction permits for structures. Also listed are some, but not necessarily all, fees that are required from agencies other than the City of San Diego.

The tables within this bulletin are designed to help determine approximately how much construction permit fees.

I. BUILDING PLAN CHECK AND PERMIT FEES

Plan check fees are paid at the time plans are submitted to Development Services for plan check. If the permit can be issued at initial contact, then the plan check fees, permit fees and any additional fees due will be listed on one invoice. Payment is made to the City Treasurer at the Cashier in the Development Services Center by cash, check, Visa or MasterCard.

Since fees are determined by project valuation, a precise valuation of the project will be verified by City staff during review. Because there are often changes in valuation, some plan check fees may be required after the initial review.

Permit and all other fees are paid when the permit is issued.

A. Application Fee

This fee is charged to recover general plan maintenance costs.

Application Fee \$ 80

B. Permit and Plan Check Fees

Basic building permit and plan check fees are based on the value of the improvements being done on the property. To determine the value of the improvements, use Table 501A, Building Valuation Schedule. After the valuation is obtained, use Table 501B to determine the building permit and plan check fees. See the first section of Table 501B for projects with valuations up to \$500,000 and the end of Table 501B for projects over \$500,000. Building permit, mechanical, plumbing and electrical fees will receive a 20% discount when processed under a master plan submittal.

C. Express Plan Check Fees

When available, a reduced review period can be accomplished by paying Express Plan Check fees. These fees are in addition to the standard plan check fee. The structural express plan check fee is listed in Table 501B. Express plan check fees for all other reviewing disciplines is \$90 per hour.

D. Permit and Plan Check Fees for Factory Built Housing

Refer to Valuation Table 501A to determine the valuation of a new structure of similar construction as the factory built structure being proposed. Once the valuation is determined, use 25% of that value to determine the fees required for factory housing. The building permit and plan check fees can be found in Table 501B.

E. Relocation Permit Fees

The fee for a relocation permit is 20 percent of the valuation of a new structure of similar type and occupancy. Valuation can be determined using Table 501A. After the valuation has been determined, see Table 501B for plan check and permit fees. A minimum valuation for such work shall be \$20,000.

A Pre-Move Inspection fee is charged for inspecting a building before it is moved and for inspection of the new site where the building will be located.

Within City of San Diego \$104

An additional fee may be charged for buildings located outside the City of San Diego.

Minimum one hour \$75 per hour

F. Plan Recheck Fees

If plans are changed after final approval and permit issuance, and must be rechecked, a nonrefundable recheck fee must be paid.

Minimum charge: one-half hour \$75 per hour

G. Expired Permit Replacement

The fee for replacing an expired permit is the cost of the full permit fees on the remaining work. See the appropriate fee schedule for the proper amount.

H. Disabled Access

Fees are charged for plan checking and the inspection of new structures and alterations or additions for compliance with State disabled access regulations. The plan check fee is 5 percent of the structural plan check fee and the inspection fee is 5 percent of the building permit fee.

I. Land Development Review

Section VII lists fees for water and sewer services and water and sewer capacity charges including potable and reclaimed water for the City of San Diego. Capacity and service installation fees associated with new construction are determined during the building permit plan review process. A Water Meter Data Card is used to determine the correct size required for water meter, service and sewer lateral. Water Meter Data Cards are available at the Development Review Center. All water and sewer costs associated with construction will be assessed at the time of building permit issuance.

All water meters and taps into public water main must be installed by the Water Department. Water services or sewer laterals may be installed by a contractor or owner-builder. A permit is required for such work in the public right-of-way. For more information refer to Information Bulletin 166 "How to Obtain a Permit for Water, Sewer or Fire Service."

Appointments are recommended when purchasing water meters, services and sewer laterals, and for plan review and building permit issuance.

(EDU). Capacity fees can be deferred. For further information, see Information Bulletin 108, "Requirements for Development Fee Deferrals."

Water Capacity Charge (per EDU)	\$2,500
Sewer Capacity Charge (per EDU)	\$2,500

Generally, Equivalent Dwelling Units are calculated as follows. For clarification or for facilities not listed, phone (619) 446-5000. Capacity charges are more particularly described in the Water Department Instruction 55.30, "Water and Sewer Capacity Charges." Copies are available upon request.

1. Residential

Single family dwellings	1 EDU
Mobile homes	1 EDU
Guest Houses (w/partial kitchen)	½ EDU
Multiple Living Units (where each unit has its own separate meter)	1 EDU

For multiple living units using a common water meter, a density break is given. Phone (619) 446-5000 for more information.

2. Commercial, Industrial, Manufacturing Facilities

All nonresidential facilities, including tenant improvements, will be charged one EDU for each twenty fixture units, or fraction thereof, plus process water charges. A Water Meter Data Card is used to determine fixture unit count. Process water includes water vending machines, car wash facilities, cooling towers, and any other non-fixture type water usage or conversions. Process water is calculated by converting gallons used per day to EDU's, as follows:

500 gallons water per day	1 EDU

Coin Operated Laundries (per washing machine)	½ EDU
Recreation Vehicle (RV) Parks (per space)	½ EDU
Boat Slips (per slip)	½ EDU

5. Irrigation Meters

Sewer capacity is not collected on irrigation meters. The water capacity charge is based on meter size, as follows:

1"	2
1½"	6
2"	8

2-2" manifolded or 3"	32

F. Plan Check Fees

Development Services assesses a plan check fee, see Section I. L. for more information.

G. Reimbursement Fees

In certain areas developers have agreed to install public water and/or sewer facilities for future use. An arrangement is made between the City and the Developer to collect the costs of these improvements from benefitting builders. Reimbursement fees are

due at the time the water meter and/or sewer connection fees are paid (typically when the building permit fees are paid). To determine if a particular lot is subject to these reimbursement fees and fee amounts, please visit the Development Review Center or phone (619) 533-5142.

H. Scheduling Water and/or Sewer Installation

After verification that all fees have been paid, water and/or sewer installations may be scheduled. If these installations are a requirement to obtain a building permit, the building permit may not have a final inspection until all water and sewer installations are complete. To schedule water or sewer installation phone (619) 527-7424. Payment of the invoice will not automatically schedule installation.

I. County Water Authority

The San Diego County Water Authority is a separate agency from the City of San Diego which supplies raw water to the region. They may charge a capacity fee when a new water meter is installed. This fee is based on the size of the water meter. If a water meter is required as a result of building plans, the fee will be collected at the time of building permit issuance. A fee schedule is available at the Development Review Center, third floor. For more information about fee amounts or requirements phone the County Water Authority at (619) 682-4100 or Information and Application Services Division and Development Services at (619) 446-5000.

A minimum of \$52 is retained from permit fees to cover computer system record corrections.

XI. PENALTY FEE

A penalty fee is charged for work done without a permit. This penalty fee is two times the normal permit fee required for the project.

TABLE 501A BUILDING VALUATION SCHEDULE

Permit fees are based on an estimated valuation of new construction and/or improvements covered by a permit. This table provides the amounts needed to determine that valuation. For example, if you are building a 3,000 square foot wood frame dwelling, the permit fees would be based on an estimated valuation of \$84.00 per square foot, or \$252,000. If this same dwelling will contain a prefabricated metal fireplace, the valuation will increase by \$2,100 per the General Additions and Modifiers Section. After the valuation is calculated, use Table 501B to determine the permit and plan check fees. In this example, with the estimated valuation of \$254,100, the charges for the permit

can be determined by reading the \$255,000 line (valuations are rounded up) on Table 501B.

Plan Check Fee	\$1130.00
Building Permit Fee	\$1432.50
Electrical Fee	\$198.00
Plumbing Fee	\$198.00
Mechanical Fee	\$ 99.00

The valuations are estimates. In lieu of these valuations, Planning and Development Review will accept a reasonable, certified cost estimate of the proposed work from the project designer or contractor.
